POTATO HARVESTER

POTATO HARVESTER

INFORMATION

The Potato Harvester is produced with a hydraulic lifting lever and universal three point linkage system. This machine runs with a PTO shaft and can harvest in single row and with a double sieving action. It can also put the harvested products in a regular line. The Potato Harvester can harvest up to 25cm depth in harsh and soft soil conditions.

POTATO HARVESTER / APS

Technical Specifications	Units	APS 1-1	APS 2-2
Number of Rows	pcs	1	2
Total Width (W)	mm	1600	1650
